| | No Pictures Allowed(Automated) |
| | No Surveys Allowed(Automated) |
| | Special Education(Automated) |

STEP BY STEP

- 1. Log into Aeries.
- 2. Click on the **Q** icon to bring up the search box.

- 4. Click on the List All button.
- 5. Note the list of students and the count and then close the screen.

This creates a KEEP statement. Anything you run in Aeries will now be limited to these students. You can create a KEEP or SKIP statement before using this feature to limit the list by site, ethnic group, gender, grade, etc.
